Shopee Code League 2021 is a 3-week long online coding challenge consisting of a series of competitions, online algorithm questions and online training workshops open to all students and professionals across the region. - 4.3 Prizes are non-transferable, and the recipients of such Prizes shall be solely responsible for any applicable taxes related to such Prizes.
- 4.4 Except as required by law, Shopee makes no warranties, express or implied, for Prizes.

5. Competition's Structure

5.1 Competition

- a) There will be a series of online competitions and online algorithm questions. The calendar of events will be released on the Competition Website by the launch of the Competition and updated when necessary.
- b) The series of online competitions and online algorithm questions will be held on various platforms. The rules and instructions to each online competition and online algorithm question may vary and such rules and instructions will be published accordingly.
- c) Participants of each team are encouraged but not required to participate in every competition.

5.2 Points System

- a) Each online competition carries different points. Each team's entry in respect of the online competitions and/or online algorithm questions will be evaluated and points are awarded accordingly.
- b) Participation in the various online competitions and/or online algorithm questions can increase accumulation of points of each team.
- c) Each team's total accumulation of points will determine its team's ranking on the Competition's leaderboard.

5.3 Competition Leaderboards

- a) Each platform will have a designated leaderboard.
- b) The points from each leaderboard will be accumulated and displayed on the Competition's leaderboard.

- c) The Competition's leaderboard will be reflected on the Competition Website and updated on a weekly basis.
- d) The Competition's leaderboard will display the top 15 teams with the highest accumulated points per participation category.
- e) At the end of the Competition, the Top 15 teams per category will be selected as winning teams.
- f) In the event of a tie (i.e. teams having equal total accumulated points), these teams will be ranked jointly on the Competition's leaderboard to which the subsequent rank(s) below will be left vacant depending on the number of teams ranked jointly. In essence, the position of all those teams that are ranked below the jointly ranked teams should be unaffected (i.e., a team only comes second if exactly one team scores better than them, third if exactly two teams score better than them, fourth if exactly three teams score better than them, etc.). Thus if Team A ranks ahead of Teams B and C which are jointly ranked ahead of D, then Team A gets ranked first, Team B gets ranked joint second, Team C also gets ranked joint second and Team D gets ranked fourth on the Competition's leaderboard.

6. Disqualification
